REPLACE THE BUSH, NOT THE ARM!

Owners of the Disco 5, Range Rover and RR Sport can suffer constant failure of the Front Lower Arm Bush, this causes knocks, bangs and vague handling. OEM replacement requires purchase of an entirely new arm. A costly exercise!

Upgrading to Polybush means just the failed bush can be replaced. Fitment of the **1DU** stops failure and outlasts rubber by 4-5 times! Installation also improves tyre life, increases comfort and reduces ongoing maintenance costs.
